CCA and B, LLC — The Elf on the Shelf®

WHO IS CCA AND B, LLC?
Launched in 2005, Creatively Classic Activities and Books (CCA and B, LLC) is a private, family-owned publishing and entertainment company and home of the bestselling Christmas classic, *The Elf on the Shelf: A Christmas Tradition*. Thanks to the dedication of their North Pole employees, a line of interactive books, toys, and even a balloon in the Annual Macy’s Thanksgiving Day Parade®, they have made their mark on the world’s stage and helped to redefine Christmas tradition.

THE STORY
CCA and B’s flagship title, *The Elf on the Shelf: A Christmas Tradition*, evolved out of a Christmas tradition that Carol Aebersold shared with her three children: Chanda Bell, Christa Pitts, and Brandon Aebersold. Every holiday season when they were growing up, Carol and her family would welcome the return of their family’s elf, Fisbee, to keep an eye on the kids and report back to Santa each night leading up to Christmas.

In 2004, Carol and her daughter, Chanda, decided to write a book about Fisbee so that they could share this tradition with other families. Thus, *The Elf on the Shelf: A Christmas Tradition* was born. Shortly afterwards, Chanda’s twin sister Christa joined the team to lead business development. After pitching the title to several publishing companies, and being rejected by each, they decided to self-publish the book through their newly-formed company, CCA and B, LLC.

The first book signing of *The Elf on the Shelf: A Christmas Tradition* took place at the Marietta Museum of History. Soon after, shops began signing on to carry their product. By the end of 2005, 18 stores set up “Santa-approved Scout Elf Adoption Centers” and the team sold out of their 5,000 units. The family trio spent the next three years traveling to trade shows, book signings and other events to promote their product.

The Elf on the Shelf® tradition, which includes the story of Santa’s Scout Elf, became a hit with consumers. Local support contributed a lot to the company’s initial launch and early growth.
